

# Adult Intravenous Arm

A realistic, life-like Advanced Adult IV Arm that can be accurately used for IV infusions, cannulation and venipuncture across all levels of training. Our Adult IV arm has accurate venous anatomy with dorsal metacarpal veins, basilic vein, cephalic vein and median veins.

## Features

- Made of high-quality medical grade silicone, to provide touch and feel of actual human skin.
- Odour free and easy to clean.
- Durable materials that mimic human tissue for a lifelike feel.
- Multiple pricks at the same spot with self-healing capabilities.
- Palpable veins.
- 3 Dorsal metacarpal veins, basilic veins, cephalic veins and median cubital veins are all present in the advanced model.
- Intact veins structure during any kind of wrist movements.
- Realistic give-away sensation when needle penetrates the vein cavity along with blood flashback.

## Skills Gained

- Proper Management and Communications skills when performing intravenous procedures.
- Practice identifying the correct positions and suitable veins for IV cannulation based on size, visibility and palpability.
- Learn and practice proper techniques for inserting the IV catheter into the veins, including angle of insertion and needle control.
- Learn the correct way to connect IV tube to the catheter and set-up fluid infusion rate.
- Understand and practice the sterile procedure during IV procedures to prevent infections in a real scenario.

# REVOLUTIONIZING MEDICAL TRAINING WITH CUTTING EDGE SIMULATORS

Maverick Simulation Solutions Ltd. is a trusted medical simulation company advancing healthcare education through the design, manufacturing, and deployment of state-of-the-art simulators. Led by experts across engineering and clinical domains, we deliver innovations that measurably improve training quality, learner competency, and patient safety.
