

Episiotomy Trainer

Master critical obstetric skills with the Episiotomy Trainer, offering lifelike anatomy for precise incision and suturing practice. An essential solution for improving technique and patient outcomes in maternal care.

Features

- Anatomically accurate perineal model replicating realistic maternal tissue structure.
- High-grade silicone construction for durability and repeated suturing practice.
- Realistic tissue feels with layered structure (skin, muscle, mucosa).
- Supports different episiotomy types including midline and mediolateral.
- Ideal for incision and suturing skill development with lifelike resistance.
- Replaceable perineal pads for cost-effective, long-term usage.
- Easy to clean and maintain for high-frequency training environments.

Skills Gained

- Episiotomy incision technique (midline and mediolateral).
- Perineal suturing and repair skills.
- Tissue handling and instrument control.
- Layer-by-layer closure technique.
- Aseptic technique and procedural workflow.
- Decision-making on episiotomy incision and repair approach.
- Local anesthesia procedure - site and depth.

REVOLUTIONIZING MEDICAL TRAINING WITH CUTTING EDGE SIMULATORS

Maverick Simulation Solutions Ltd. is a trusted medical simulation company advancing healthcare education through the design, manufacturing, and deployment of state-of-the-art simulators. Led by experts across engineering and clinical domains, we deliver innovations that measurably improve training quality, learner competency, and patient safety.
