

Catheterization Trainer

A realistic, life-like Male & Female Catheterization trainer to facilitate the trainees to learn urethral and supra pubic catheterization. A single pelvic shell with interchangeable modules of male & female which allows to practice procedures for urinary catheterization, supra pubic catheterization, and insertion of rectal enemas.

Features

- Made of high-quality medical grade silicone, to provide touch and feel of actual human skin.
- Odour free and easy to clean.
- Durable materials that mimic human tissue for a lifelike feel.
- Compatible with a range of catheter sizes and types.
- The trainer has interchangeable genitals (both male and female).
- Urethral obstruction can be created in both male and female genitals.
- Correct bony landmark to examine the palpate symphysis pubis.
- Insertion of a supra pubic catheter through a precut port.

Skills Gained

- Proper management of male and female anatomy.
- Correct bony landmark to palpate symphysis pubic.
- Management of urethral obstruction.
- Aseptic catheterization methods.
- Catheter removal protocol.
- Urinary catheter procedures.
- Suprapubic catheter care.

REVOLUTIONIZING MEDICAL TRAINING WITH CUTTING EDGE SIMULATORS

Maverick Simulation Solutions Ltd. is a trusted medical simulation company advancing healthcare education through the design, manufacturing, and deployment of state-of-the-art simulators. Led by experts across engineering and clinical domains, we deliver innovations that measurably improve training quality, learner competency, and patient safety.
